## Must Have: Hold Me Vanity Makeup Case...

Posted by [Lianne](#) on March 24, 2010 · [View Comments](#)

Have you ever had this problem....you need to travel with all of your stuff and you need a few little bags to fit it into?? Or maybe you are just tired of having 3 bags for your brushes, makeup and the like. Check THIS out.....I found the most FABULOUS all in one bag called Hold Me. This bag is not the standard issue vinyl, see-through plastic, multi-multi-compartment cosmetic bag you may be using. Nor is it the one from the department store – a major cosmetic company's bag that fits their own specific products. It is not a day planner with pages for make-up. THIS bag is the “*little black dress*” of makeup bags.

First off, it's suede so it looks classy AND it's easy to clean. Secondly, it folds up like a little case AND it has compartments for EVERYTHING. The one I picked up is the Miss Suki BUT they have four lovely styles to choose from.

***The Rundown:***

**Classic Black** This Classic Black Bag features both an interior and exterior of Knew Suede, a high-performance, created fabric that is sleek and soft to the touch. This beautiful fabric was chosen for its great personality with traits that include superior shape retention and cleaning. It is easy care, as even the most stubborn make-up traces are easily wiped away.

**Miss Suki** The Miss Suki Bag features a Japanese illustration that is SUPER cute. The interior highlights made from an all-cotton print that has been over-laid with a sleek washable surface. The exterior and parts of the interior are made from Knew Suede, a high-performance, created fabric that is sleek and soft to the touch. This beautiful fabric was chosen for its great personality with traits that include superior shape retention and cleaning.

**Vanity Dames** The Vanity Dames Bag features pretty illustrations of women in the same all-cotton print that has been over-laid with a sleek washable surface. The exterior and parts of the interior are made from Knew Suede, a high-performance, created fabric that is sleek and soft to the touch.

**Les Fleurs** The Les Fleurs Bag features a pretty floral interior print made from an all-cotton print that has been over-laid with a sleek washable surface. The exterior and parts of the interior are made from Knew Suede, a high-performance, created fabric that is sleek and soft to the touch

The Hold Me Vanity Makeup Case is available online at [holdmecompany.com](http://holdmecompany.com)

Pack Pretty!!!
